L 2.122/46:987

Area Wage Survey Southwest Virginia December 1987

U.S. Department of Labor
Bureau of Labor Statistics
Summary
February 1988

L 2.122/46

This summary presents results of a December 1987 survey of occupational wages in the Southwest Virginia area, which consists of the cities of Buena Vista, Clifton Forge, Covington, Danville, Galax, Lexington. Lynchburg, Martinsville, Radford, Roanoke, Salem, South Boston, Staunton, and Waynesboro; and the Counties of Alleghany, Amherst, Appomattox, Augusta, Bath, Bedford, Bland, Botetourt, Campbell, Carroll, Craig, Floyd, Franklin, Giles, Halifax, Henry, Highland, Montgomery, Nelson, Patrick, Pittsylvania, Pulaski, Roanoke, Rockbridge and Wythe. This is 1 of over 100 areas which the Bureau of Labor Statistics surveys annually or every other year at the request of the Employment Standards Administration of the U.S. Department of Labor for use in administering the Service Contract Act of 1965. In addition, the Bureau conducts more extensive studies of occupational wages and related benefits in 90 other areas throughout the United States. For information on these reports and other Bureau publications, contact any BLS regional office identified on the back page.

This study covered establishments employing 50 workers or more in manufacturing; transportation, communication, and other public utilities; wholesale trade; retail trade; finance, insurance, and real estate; and selected services. A sample of 143 establishments employing 84,926 workers was selected to represent 778 establishments employing 212,552 workers in the area. Data collected in the sample of establishments were projected to represent all establishments within the scope of the survey.

Table 1 provides hourly earnings information on office and plant workers employed in selected occupations common to a variety of industries. Occupational classification was based on a uniform set of job descriptions designed to take account of variations in job duties among establishments. The job descriptions used in the survey are available on request. (See table 2 for further information on the scope of the survey.)

[1] Excludes premium pay for overtime and for work on weekends, holidays, and late shifts. Also excluded are performance bonuses and lump-sum payments of the type negotiated in the auto and aerospace industries, as well as profit-sharing payments, attendance bonuses, Christmas or year-end bonuses, and other nonproduction bonuses. Pay increases—but not bonuses—under cost-of-living allowance clauses and incentive payments, however, are included. Hourly earnings reported for salaried workers are derived from regular salaries divided by the corresponding standard hours of work. The wages of learners, apprentices, and handicapped workers are excluded. The mean is computed for each job by totaling the earnings of all workers and dividing by the number of workers. The median designates position—one-half of the workers receive the same as or more than this rate and one-half receive the same as or less than this rate. The middle range is defined by two rates of pay; one-fourth of the workers earn the same as or less than the lower of these rates and one-fourth earn the same as or more than the higher rate. Middle ranges are not provided when fewer than 15 workers are reported.

[2] For occupations with more than one level, data are included in the overall classification when a subclassification is not shown or information to subclassify is not available.

[3] All workers were at $17.00 to $18.00.

Table 2. Establishments and workers within scope of survey and number studied in Southwest Virginia,[1] December 1987

Industry division[2]	Minimum employment in establishments in scope of survey	Number of establishments		Workers in establishments		
		Within scope of survey[3]	Studied	Within scope of survey[4]		Studied
				Number	Percent	
All divisions	50	778	143	212,552	100	84,926
Manufacturing	50	350	60	137,035	64	59,449
Nonmanufacturing[5]	50	428	83	75,517	36	25,477

[1] The Southwest Virginia area consists of the cities of Buena Vista, Clifton Forge, Covington, Danville, Galax, Lexington, Lynchburg, Martinsville, Radford, Roanoke, Salem, South Boston, Staunton, and Waynesboro; and the Counties of Alleghany, Amherst, Appomattox, Augusta, Bath, Bedford, Bland, Botetourt, Campbell, Carroll, Craig, Floyd, Franklin, Giles, Halifax, Henry, Highland, Montgomery, Nelson, Patrick, Pittsylvania, Pulaski, Roanoke, Rockbridge and Wythe. The "workers within scope of survey" estimates shown in this table provide a reasonably accurate description of the size and composition of the labor force included in the survey. The estimates are not intended, however, to serve as a basis for comparison with other statistical series to measure employment trends or levels since (1) planning of wage surveys requires the use of establishment data compiled considerably in advance of the payroll period studied, and (2) small establishments are excluded from the scope of the survey.

[2] The 1972 edition of the *Standard Industrial Classification Manual* was used to classify establishments by industry division. All government operations are excluded from the scope of the survey.

[3] Includes all establishments with total employment at or above the minimum limitation. All outlets (within a metropolitan area or nonmetropolitan county) of nonmanufacturing companies are considered as one establishment when located within the same industry division.

[4] Includes all workers in all establishments with total employment (within the area) at or above the minimum limitation.

[5] Includes transportation, communication, and other public utilities (excluding taxicabs and services incidental to water transportation); wholesale trade; retail trade; finance, insurance, and real estate; hotels and other lodging places; personal services; business services; automotive repair services and garages; motion pictures; membership organizations (excluding religious organizations); and miscellaneous services. Major industries excluded from this survey are agriculture; mining; construction; and some services (notably educational institutions and medical services).

Area Wage Survey Summaries

The following areas are surveyed periodically under contract to the Employment Standards Administration of the U.S. Department of Labor for its use in administering the Service Contract Act of 1965. These more limited surveys supplement the Bureau's area wage survey program listed on the inside back cover of this summary. Reports on the surveys shown below are available at no cost from any of the Bureau's regional offices while supplies last.

Employee Benefits in Medium and Large Firms, 1986

U.S. Department of Labor
Bureau of Labor Statistics
Bulletin 2281

The Bureau of Labor Statistics issues its 1986 bulletin on employee benefits in medium and large firms. This survey is the eighth in the series.

Data available

- Incidence and detailed characteristics of 14 private sector employee benefits paid for at least in part by the employer: Lunch and rest periods; holidays, vacations, and personal, funeral, jury-duty, military, and sick leave; sickness and accident, long-term disability, health, and life insurance; and private retirement/capital accumulation plans. The retirement data include defined benefit plans, such as benefit formulas and pension replacement rates, and defined contribution plans, such as salary reduction or 401 (k) plans.
- Incidence and provisions of flexible benefit plans and reimbursement accounts are included for the first time in 1986.

Coverage

- Major benefits in medium and large firms, nationwide.
- Minimum employment in establishments covered is generally 100 to 250 employees, depending on the industry.

Source of data

- Samples of about 1,500 establishments in a cross-section of the Nation's private industries; primarily by personal interview.

Uses

- Benefit administration in public and private employment.
- Union contract negotiations.
- Conciliation and arbitration in public and private sectors.
- Development of legislation affecting the welfare of workers.

Order Form

Publications are available from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, or from BLS Publications Sales Center, P.O. Box 2145, Chicago, IL 60690.

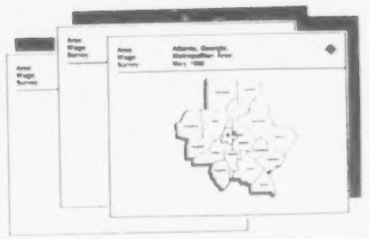
Area Wage Surveys Available Individually and by Subscription

Area wage survey publications may be ordered individually by checking the appropriate boxes on this page and completing the order form below. A subscription, at $71.00, will bring you all the surveys published during the following 12 months. Beginning in 1987, the 32 largest areas will be surveyed every year, and two groups of 29 areas will be surveyed in alternate years.



Area	Bulletin No.	Price
☐ Albany–Schenectady–Troy, NY, Sept. 1986	3035-43	$1.75
